

Barra and Vatersay's Local Energy Plan Invitation to Workshop

We are pleased to invite you to the Barra and Vatersay Local Energy Plan Workshop which will take place on **Wednesday 30th May 2018, 6.30-8.30pm** in the Barra Learning Centre.

This workshop will be centred around the draft Local Energy Plan which can be found at:

<https://www.localenergy.scot/media/110325/bv-draft-local-energy-plan-final.pdf>

Paper copies are available at the Coimhearsnachd Bharraidh agus Bhatarsaidh office.

This workshop is an opportunity to review the draft plan as well as discuss the proposed actions and who within the Barra and Vatersay community would be best placed to take forward future projects. We see your contributions to this discussion as very valuable and something which will shape the final plan. The workshop will be centred around three main themes:

- Energy in the Home
- Energy in Transport
- Energy & Industry throughout Barra & Vatersay

We also want to make sure that the plan has included what you see as the key projects and proposals for the Barra & Vatersay Community to develop. Please get in touch with Kathleen MacDonald at Kathleen.macdonald@communityenergyscotland.org.uk or 01851 707 881 to confirm your attendance.
